Objective of the Webinar

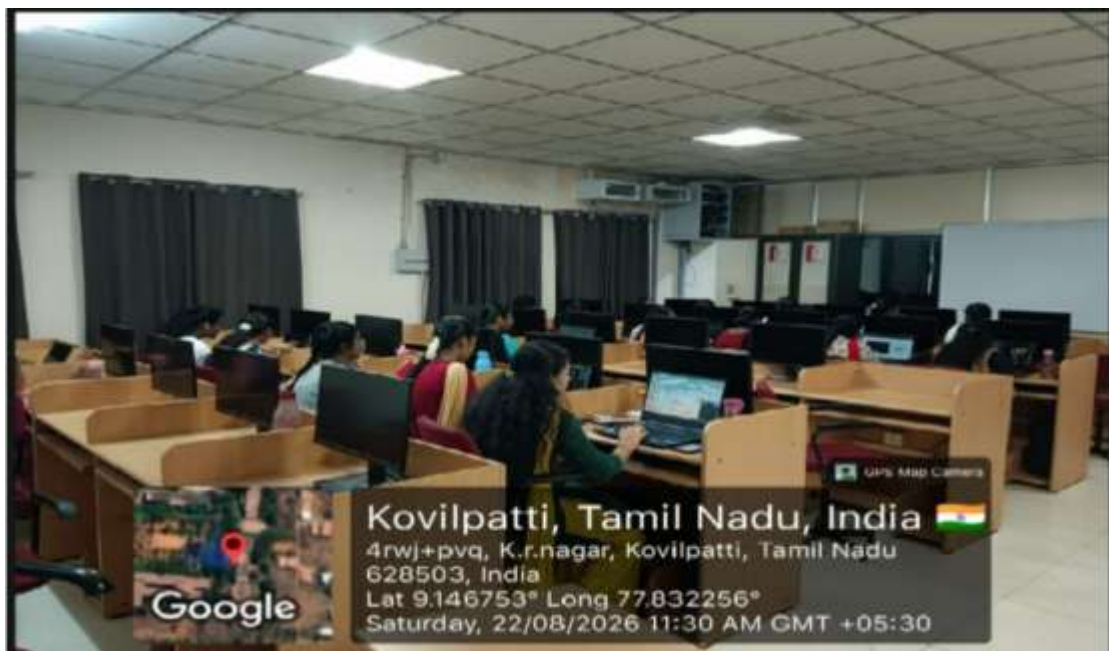

- To introduce students to mobile application development using React Native.
- To provide hands-on training on building mobile applications using React Native.
- To explain the basic and intermediate concepts involved in React Native development.
- To help students understand the practical process of developing mobile applications.
- To provide industry-oriented knowledge and guidance in the Mobile Application domain.
- To familiarize students with the tools and prerequisites required for React Native development, including VS Code.
- To encourage students to explore career opportunities and develop skills in mobile application development.

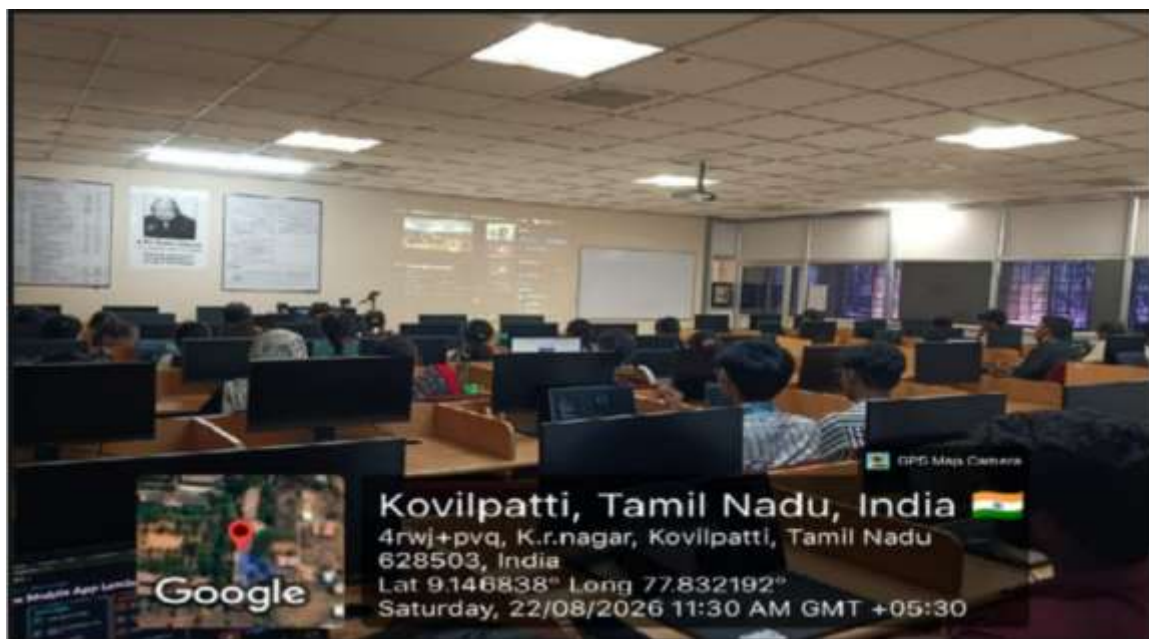

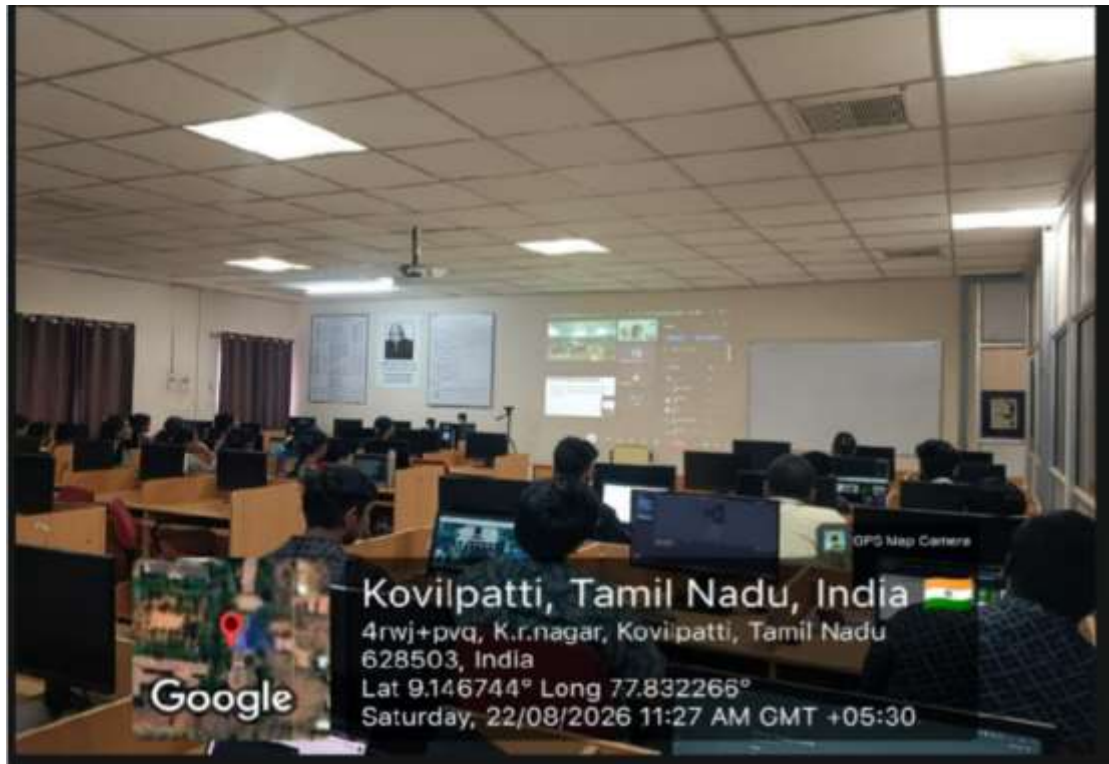

Webinar Report / Proceedings

- The webinar titled “Build Mobile App with React Native” was organized by the NEC Alumni Association.
- The webinar was conducted on 22 August 2026 (Saturday) from 11:30 AM to 12:30 PM in Online mode.
- The session was handled by Ms. Mohana Krishnaveni, Technology Education Manager, Accenture, Chennai.
- The resource person provided an introduction to the field of Mobile Application Development and explained the importance of React Native in developing mobile applications.
- The session was conducted as a hands-on training session, covering concepts from the basics to the intermediate level.
- Students were guided on the prerequisites required for the session, including the installation and use of VS Code and basic knowledge of React.
- The speaker explained the fundamental concepts and practical approach involved in building mobile applications using React Native.
- Students gained insights into the development process and the practical implementation of React Native for mobile applications.
- The session provided students with valuable industry-oriented guidance from a professional working in the technology sector.
- Practical guidance and learning strategies were shared to help students improve their skills in the Mobile Application Development domain.
- 82 students registered for the webinar through the Alumni Portal, and nearly 100 students attended the session.
- The session was interactive and informative, with active participation from the students.
- Anushiya Selvi, B.E. CSE 2028 Batch (3rd Year), was recognized as the Most Interactive Attendee for her active participation during the session.
- Email: anushiya.anuma.132@gmail.com

Outcome of the Webinar

- Students gained a basic understanding of React Native and Mobile Application Development.
- Participants became familiar with the concepts and practical approach involved in building mobile applications.
- Students gained exposure to both basic and intermediate-level concepts of React Native.
- The webinar helped students understand the importance of React knowledge and development tools such as VS Code in mobile application development.
- Students received practical and industry-oriented guidance from an experienced technology professional.
- The session helped students identify important skills and areas to focus on for developing mobile applications.
- Participants gained awareness of the opportunities available in the Mobile Application Development domain.
- The webinar enhanced students' confidence and interest in learning and developing mobile applications using React Native.
- The active participation of students made the session interactive, engaging, and informative.
- Anushiya Selvi was recognized as the Most Interactive Attendee for her active participation during the webinar
